

Decree over the city.

Because God says that it's time for retribution. It's time for full recovery. And even for Minneapolis, the Spirit of the Lord says, "I am going to cause even generations of evil that have been perpetrated against this city, I'm going to cause generations of things that the enemy has tried to work against you for evil. You're going to begin to experience a boomerang effect. You're going to experience boomerangs in your churches. You're going to experience boomerangs in your business communities. You're going to experience it in your schools. And the Lord says, I'm going right to the very heart of racism and antisemitism. The Lord says, I am breaking the spirit of robbery that has been against this city.

And the Lord says, you will experience turn around. You will experience a reversed curse. And you will experience the fullness of revival in this town, says the Spirit of God, in this city, for I have claimed it for My Kingdom sake, says the Lord.

I'm going to name the names of these spirits and after I say it, you are going to say whoa. How many know it says, "Whoa to those who decree unrighteous ____"

Hamen represents a spirit of robbery. I can't teach on that. But he is a native Magite, and the Magites are the Amalekites and the Amalekites are the spirit of robbery.

We decree against the spirit of religion and we say whoa.

Against the spirit of antichrist, we say whoa.

Against the spirit of witchcraft and the occult, we say whoa.

Against the spirit of perversion, we say whoa.

Against the political spirit, we say whoa.

Against racism, we say whoa.

Against false justice and injustice, we say whoa.

Against the spirit of slumber, apathy, and complacency, we say whoa.

Against the spirit of babel result of unrighteous unity, and a mob mentality and cancel culture, we say whoa.

Against accusation, we say whoa.

Against fear and intimidation, we say whoa.

And we declare over this city and over the United States of America we move into the season of judgement against God's enemies and all ten of Hamen's sons will be hung.
